**CANAL CLOSING
BAD FOR
HERRING BOATS.**

This season thus far, the shore boats and launches have struck quite a fair run off herring, of good size, off Newburyport and up the shore to the westward from here. About all these fish so caught are brought here for market. The boats from the westward get here readily enough, but with the launches from up Newburyport way it is far different. They cannot get through the canal as it is closed up, but have to take chances and come up around the cape, outside, and this, with a little sea running and heavily laden as the boats are, is no easy job, but a case of taking risks. Wednesday night three boats came around this way. They were loaded till there was not much more than two streaks clear and had it not been calm all night, they would have been forced to turn back and these much wanted fish would not have been put on the market here.

While it is bad enough for these larger boats which seine their catches, it is going to be much worse for the smaller sized launches which go torching a little later. Then the weather will be more boisterous and the sea rougher, so that it is thought that not too many of them will venture around outside, with big loads, unless the weather is very favorable.

This bait is a necessity to this port and the only way out of it appears for the boats after getting their herring to go to Bay View, Annisquam or up to some point near the railroad bridge, load their catch into barrels and on teams and send them to the wharf. All this means one more handling of the fish, also a loss of time and increase in the cost of the bait.

It is hoped that the work at the canal may be so expedited that before the season is over the launches may be able to come through as usual. The torching season has already begun, although but few catches have been made. On Tuesday night several boats were out chasing small herring in Annisquam river. It is hoped that the fish may strike into the river again as they did two years ago, when good catches were made.

VIOLATION OF LOBSTER LAW.

Joseph E. Monize, a shore fisherman, was arrested by Deputy Fish and Game Commissioners William W. Nixon and Herbert A. Bent this morning as he came ashore, for alleged violation of the lobster law. Monize had 11 short lobsters in his possession, some of which were as small as six inches.

THREE VESSELS SAILED.

And More Fitting for Newfoundland Herring Seining.

Vessels Have No Trouble in Securing Men at This Port.

Thus far three vessels equipped for herring seining on the Treaty Coast of Newfoundland have sailed from here and many others are being made ready, and their number will be augmented as soon as some of the salt bankers get home; owners, captains and men have faith in the seining idea and there is no trouble in shipping crews.

The vessels which have sailed are schs. Edna Wallace Hopper, Norma and Annie M. Parker. The former have been on the ground for a week or so and the two latter will be there in a few days. The sch. Ambia will soon be ready, after repairing the damage caused by the fire on board, after she was all ready to sail and the Vigilant, which has been fitted with auxiliary power, will not be long now in getting away. As stated above many other vessels are now fitting out.

POTOMAC AT ST. JOHN'S.

Government Tug for Treaty Coast Duty Arrived There Yesterday.

The U. S. government tug Potomac, which sailed from here Saturday afternoon, having on board Mr. A. B. Alexander, representing the State department, and which will do duty on the Newfoundland treaty coast this fall and winter, arrived at St. John's N. F., yesterday. Mr. Alexander and Lieut. Hines called on the government officials and the tug will leave there today for Bay of Islands, via St. Pierre, Miquelon.

Under Protest.

The Boston fishing sch. Arthur Binney, which has been seized by Canadian officials on the charge of landing smuggled goods as reported in yesterday's Times, is owned by John J. Fallon of Boston. Mr. Fallon has been notified of the seizure by Capt. Rufus McKay, the commander of the vessel. Capt. McKay reported that the schooner had been seized for a misdemeanor alleged to have been committed two years ago, while the schooner was in charge of another captain.

Mr. Fallon has arranged for a deposit of money to secure the release of the vessel and says he will begin an investigation, as he thinks a mistake has been made. The Arthur Binney has been engaged in mackerel fishing all summer.

The amount of the fine, \$450, was paid under protest.

MANY SHORT LOBSTERS.

Found in the Possession of Joseph Monize.

Fish and Game Officers Arrested Him Yesterday.

Joseph S. Monize, a Portuguese lobster fishermen with headquarters at Five Pound Island was arrested yesterday morning by Deputy Fish and Game Inspectors William W. Nixon of this city and Herbert A. Bent of Franklin, for having short lobsters in his possession. At the time of the arrest, Monize had a basket on his arm, containing 11 short lobsters, some of which were as small as six inches in length. Monize was admitted to bail but the officers were satisfied that he had more lobsters somewhere and procuring a search warrant, proceeded to his place of business and hauled the lobster car which contained 236 lobsters.

Monize was again placed under arrest, and again bailed out, but appeared in court this morning before Judge York, and was represented by Charles D. Smith, Esq., who entered a plea of not guilty for his client.

Inspectors Nixon and Bent testified to seizing the first lot of 11 lobsters and then returning with a search warrant to search the car. On the second visit Monize offered some objection to their proceedings and attempted to drive an oar through the bottom of the car but without avail. Mr. Bent measured the 236 lobsters in the car while Mr. Nixon put down the measurements on a slip of paper and all the lobsters were below the length required by law.

After hearing all the evidence in the case, Judge York found Monize guilty of both complaints against him, and imposed a fine of 25 cents for each short lobster, a total of \$61.75. Monize appealed and was ordered to furnish surety in the sum of \$200 for his appearance before the superior court.

The fish and game inspectors stated to the court that their attention had been called to the business of Monize by the local officers.

LUNENBURG FISHERIES.

Shore Fishermen Reaped Richest Harvest for Thirty Years.

A Lunenburg, N. S., despatch, in speaking of the fisheries of that port, which is called the "Gloucester of Nova Scotia," says:

"While the bank fishermen have not made a very profitable year's work, the shore fishermen have reaped a rich harvest from the sea. This beats any record for the past 30 years. Usually every seven years shore fishermen do well; but this year, although coming within the rule, has excelled the brightest hopes of the fishermen themselves."

"During the summer mackerel were principally caught, over 10,000 barrels being taken in and around the town of Lunenburg. Cash has been paid mostly for the fish and consequently there has been good times all summer. Now these men are at the herring fishing, which are reported very plentiful. At Tanook over 1000-barrels were taken last week."
